The History of the JCC

For over 50 years, the JCC Preschool, has been the forefront of early childhood education in Corpus Christi. Our Program prepares your child for the future through an enriching atmosphere of learning.

Our philosophy is the belief that the most important assets children can gain from a preschool are independence and a positive self-image. Children deserve the opportunity to learn in a creative environment which is sensitive to individual needs.

Our JCC teachers possess valuable qualities including: patience and knowledge of the social, emotional, physical and intellectual needs of each child. We appreciate parents as the child's first and most important teachers and do our utmost to work with each parent to ascertain the needs of the child.

The JCC Administration's philosophy is to provide an enriching atmosphere where:

- A.) Children can continually build on successful experiences.
- B.) Children learn by participating in concrete manipulative activities.
- C.) Children build trust in the world around them and confidence in themselves.
- D.) Children learn with center activities which stimulate and encourage exploration, imagination, and discovery.

The JCC Preschool is operated by the Jewish Community Center for children of all faiths and denominations who desire a high quality educational program which provides varied, enriching experiences and broadening of the child. The program is flexible and geared to meet the child's needs with emphasis placed on age appropriate social, emotional, physical, and intellectual development.

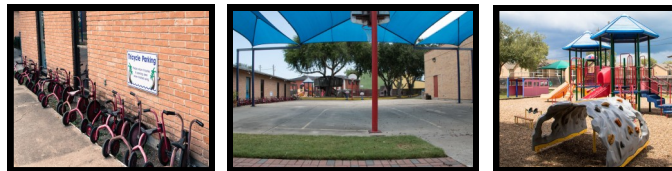

It's a great day at the "J"!
